

For Immediate Release

DDP Motorsports, Anderson's Pure Maple Syrup, Pathfinder Chassis in 2018

Lomira, WI (Jan. 5th, 2018) – DDP Motorsports will once again be partnered with Anderson's Pure Maple Syrup and Pathfinder Chassis in 2018. Anderson's Pure Maple Syrup will be the primary sponsor. Pathfinder Chassis will be directly involved with car set-up and racing equipment research and development.

Anderson's Pure Maple Syrup is a tradition over 90 years in the making. In 1928, Paul Anderson first shared the distinct taste of Wisconsin's Northwood's by producing delicately sweet pure maple syrup. Three generations later, his Grandson, Steve Anderson, still produces the pure, all natural, healthy alternative to artificial "maple-flavored" syrups. Anderson's Pure Maple Syrup can be found in Supermarkets and Specialty Stores all across the Country.

Pathfinder Chassis has a rich history of building quality racecars for some of the best drivers in the Country. One of their cars, driven by Matt Kenseth, won the 2016 Slinger Nationals in Slinger, Wisconsin. They then won the 2016 Dixieland 250 at WIR in Kaukauna, Wisconsin, with Dennis Prunty driving that same car.

JJ Fabrication, Inc., the manufacturer of the Pathfinder Chassis brand of Asphalt Late Model Race Car, is headquartered at 3372 Burke Road in Sun Prairie, Wisconsin. They also currently offer the offset (straight rail) chassis and truck chassis.
